

Please see notice below from the JJATC

Attn All District Council JJATC Training Centers,

In response to the Coronavirus and based on the recommendation of many sources, classes are postponed until further notice at all 7 training location within the District Council. The goal is to resume after the spring break, but we are taking this situation one day and week at a time. The school year will be extended as needed to make up for the postponement. In addition to regular classes in Los Angeles; the March 28th Pump Class, 5th year UA Star study session and the apprentice applicant Math/English testing are also postponed. Contact myself or Rick with any questions or concerns.
